SUMMARY

Entry Level UX Designer with a passion for creating innovative, easy-to-use designs for product-based companies. Proven ability to design for a variety of mobile and web platforms. Skilled in researching user behaviors and designing intuitive user interfaces. Applying for a position as an UX Designer to leverage my experience and create engaging user experiences.

PROJECTS

Full Stack Development Bootcamp Education Marketing Landing Page
Guvi · November 2022 –February 2023
· This is my first project I build in my training classes at Guvi.
· This project helps everyone to enroll for full stack development bootcamp even they have no degree or working in another industry.
· This Project is a redesign of Guvi Full Stack development bootcamp Landing Page.

Reto – PG/Room Searching App
Portfolio – Case Study · October 2022 – March 2023
· Peoples can easily search for their PG/Room rental all over India by using search option.
· PGs are verified only shown to user who choose preferences in the filters.
· Peoples can view the pictures of Rooms/PG with live updates of Rents.
· Design is aesthetic and usable to all users – accessible to partially disabled peoples voice access.
